

Assignment - 3

Bucket And Watson assistant

Assignment Date	31 October 2022
Student Name	SOWBARNIGHA J
Student Roll Number	1919102155
Maximum Marks	2 Marks

Questions:

1. Create a Bucket in IBM object storage.

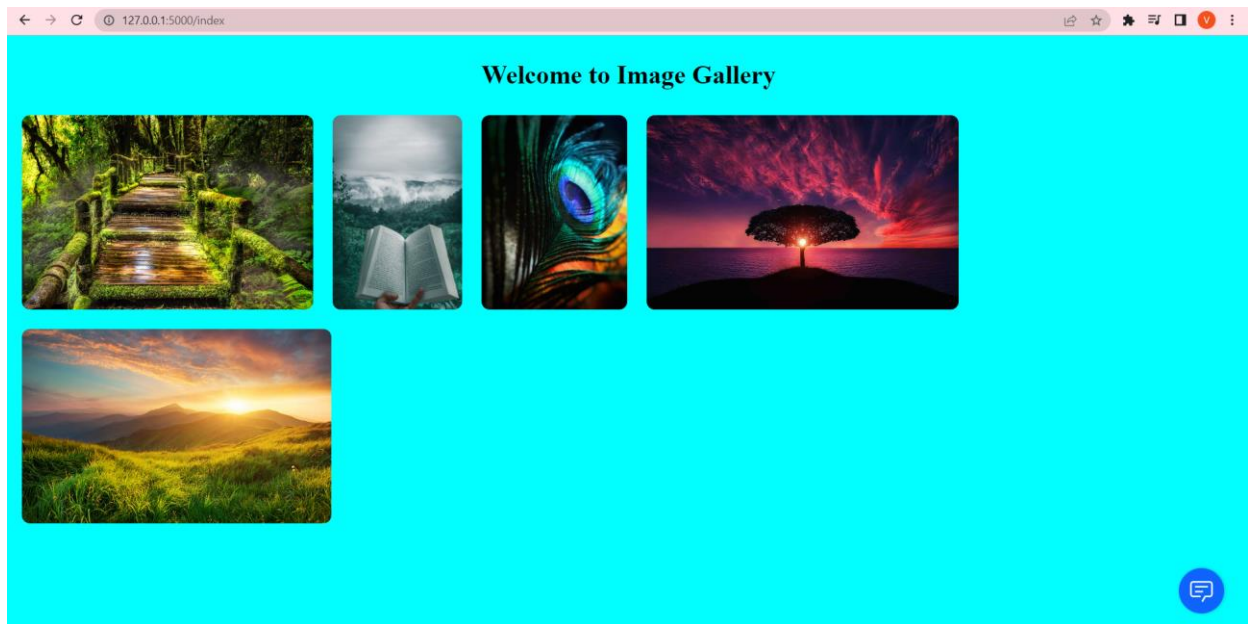

2. Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Index.html

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta http-equiv="X-UA-Compatible" content="IE=edge">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Smart Fashion shop</title>
  <link rel="stylesheet" href="https://flask-plasma1.s3.jp-tok.cloud-object-storage.appdomain.cloud/index.css">
  <style>
    body{
      background-color: aqua;
      display: flex;
      align-items: center;
      justify-content: center;
      flex-direction: column;
    }
    img{
      height: 240px;
      border-radius: 10px;
      margin: 10px;
    }
  </style>
</head>
<body>
  <h1>Welcome to Image Gallery</h1>
```

```
<div>
  
  
  
  
  
</div>
<script>
  window.watsonAssistantChatOptions = {
    integrationID: "3a3031a0-6417-4ea1-8d7f-aa027a707ff4", // The ID of this
integration.
    region: "jp-tok", // The region your integration is hosted in.
    serviceInstanceID: "83cc55ca-5fdb-4ffd-b11a-cebe2fab5f4d", // The ID of
your service instance.
    onLoad: function(instance) { instance.render(); }
  };
  setTimeout(function() {
    const t=document.createElement('script');
    t.src="https://web-
chat.global.assistant.watson.appdomain.cloud/versions/" +
(window.watsonAssistantChatOptions.clientVersion || 'latest') +
"/WatsonAssistantChatEntry.js";
    document.head.appendChild(t);
  });
</script>

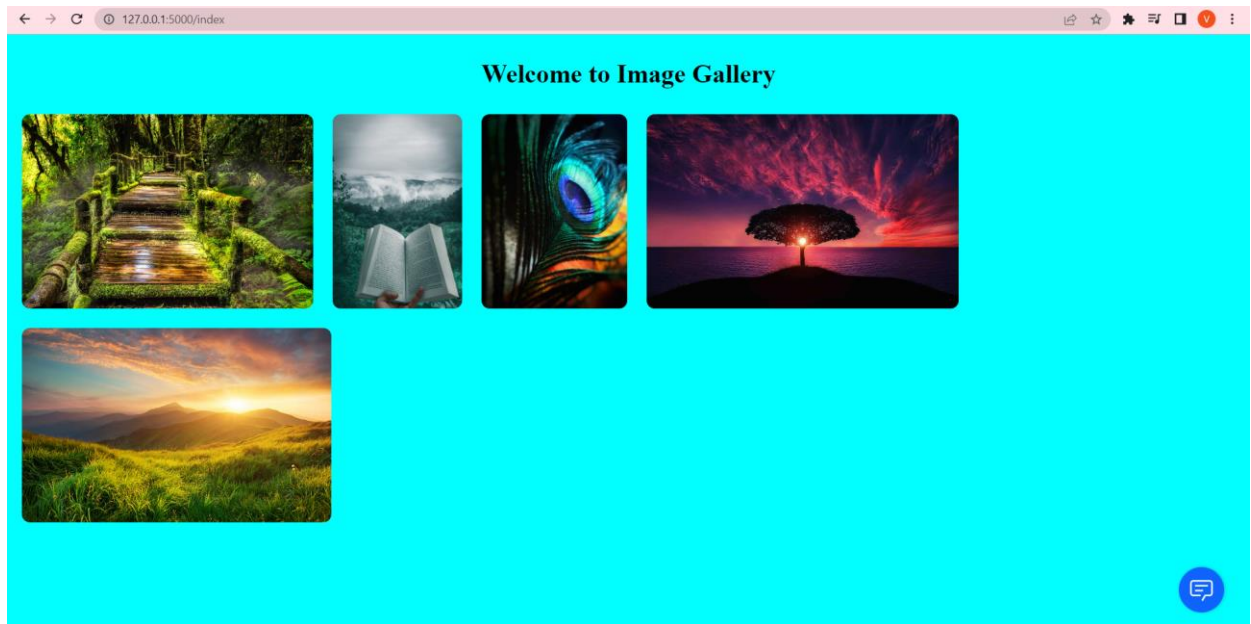

</body>
</html>
```

3. Upload a css page to the object storage and use the same page in your HTML code.

```
4.<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta http-equiv="X-UA-Compatible" content="IE=edge">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Smart Fashion shop</title>
  <link rel="stylesheet" href="https://flask-plasma1.s3.jp-tok.cloud-
object-storage.appdomain.cloud/index.css">
</head>
<body>
  <h1>Welcome to Image Gallery</h1>
  <div>
    
    
    
    
    
  </div>
</body>
</html>
```

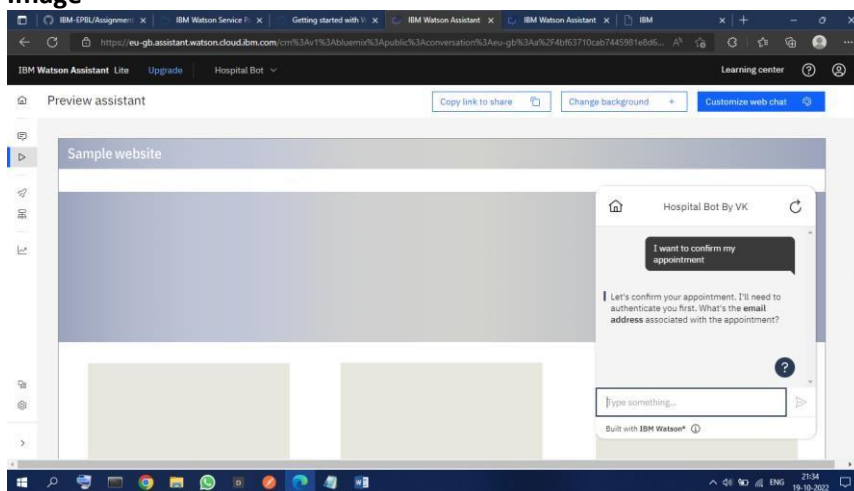

Output:

5. Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

Url :- [chatbot link](#) <- click

Image-

5 .Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

The screenshot shows the IBM Watson Assistant interface for a service named "Check upcoming payment". The interface is divided into three main sections:

- Conversation steps:** A list of four steps in a conversation flow:
 - Step 1: "enter name" with a "Free text" input type. Below it is a "Continue to next step" button.
 - Step 2: "enter mobile number" with a "Number" input type. Below it is a "Continue to next step" button.
 - Step 3: "thank you" with a "Confirmation" input type. Below it is an "Action complete" button.
 - Step 4: A text block "You can check your payment due date by logging into your account [here](https://www.ibm.com), an..." with an "Action complete" button.
- Customer starts with:** A section for defining phrases that start the conversation. It includes a text area for "Enter phrases that a customer types or says to start the conversation about a specific topic..." and a list of phrases: "hi", "When is my premium due", "When is my next bill due?", "when is my next bill due", and "when is my bill due for my policy". A "Total: 26" indicator is shown.
- Preview:** A button to preview the conversation flow.

This screenshot is similar to the one above but includes a "Preview" window on the right side. The preview window shows a simulated conversation:

- Greet customer [default]:** "Welcome, how can I assist you?"
- Customer input:** "hi"
- Assistant response:** "Check upcoming payment recognized"
- Next step:** "enter name"

The preview window also has a "Type something..." input field at the bottom.
